SOLD'S GENUINE PREPARATIONS.

BELMBOLD'S HIGHLY CONCENTRATED Compound Fluid Extract Buchu.

—FOR—

Diseases of the Bladder, Kidneys, Dropsy, Weakness, Secret Diseases, Gravel, Inflammations, Female Complaints, Diseases of the Sexual Organs, whether in MALE OR FEMALE, whatever cause they may have originated, and of whatever nature or kind they may be.

No Matter of How Long Standing, or how much any other remedy has failed, yet this remedy is now offered, and guaranteed to cure all the above complaints, whether arising from imprudence, or from the effects of Mercury, or from the Nursing of Infants, or from any other cause, rendering them unfit for the duties of life, and causing the whole frame to be affected with Nervous Trembling, Cold Feet, Pimples on the Face, Pain in the Head, Dimness of Sight, Universal Lassitude of the Muscles, Pain in the Back, Hot Hands, Flushings of Heat, Sudden Starts in Sleep, Wakefulness, Dreadful Dreams, Nervous Irritation, Fits, Nervous Weakness, Sleeplessness, Confusion of Ideas, Pain in the Spine, Pain in the Limbs, Dyspepsia, Palpitation of the Heart, Hot Flushes, Pain in the Side, Dry Cough, Consumption, Pain in the Joints, Pain in the Bones, Tetter, Pimples on the Face, Blotches, Eruptions on the Skin, Nervous Irritability, Fever, Dullness of Hearing, Universal Prostration of the Nervous System, &c. &c.

It is a fact that we can prove, and we do not hesitate to state it, that it is now beyond all question, the most popular medicine of the day, and the most extensively used, and the most universally approved of, of any medicine now before the public. Its sale is now unlimited in the United States, and it is rapidly gaining ground in Canada, Mexico, and the West Indies. Its sale is now equal to any three other Sarsaparilla and Buchu, and various mixtures of Sarsaparilla, Buchu, and Stillingia, which have been given, all of which, of course, are according to the mode in which each individual may adopt.

Medicines require considerable care in their preparation, and the employment of different menstruums or operations, to take out the virtues of the various articles of which they are composed, and to combine them in such a manner as to create great confidence in them, and, in consequence, a demand for them. Improperly made, and not sufficiently compounded, if not rendered totally inert, by the want of skill and knowledge in the manufacture, and unskilful management of the menstruums, and unacquainted with pharmaceutical preparations, and the proper combination of the different ingredients, therefore, of the highest consequence to the public, and to the faculty, that there should be a standard preparation of the highest and most approved character, and to effect this, and obviate the evil attendant on the use of a number of experiments to ascertain the most effectual mode of extracting the virtues of Sarsaparilla and the Buchu, and to place them in a medicinal eligible form for the use of the sick, the experiments have resulted most favorably, and the result is, that we now offer to the public a preparation which pleases, I now offer to the public, the Compound Fluid Extract, which contains all the virtues of the articles they are intended to be made from in a highly concentrated form, and are the most active preparations that can be made. Two table spoonfuls of this extract Sarsaparilla added to a pint of water, and taken as a tea, will now be equal to the Lisbon diet drink, and one tablespoonful, as a dose, will now be equal to a pint of the ordinary decoction, as usually made.

—PRICES—

Extract Buchu, $1 per bottle, or 6 for $5
Extract Sarsaparilla, $1 " " " 6 " 5

GREAT

American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, late Agent of the U. S. Patent Office under the Act of 1837, determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS instead of *twenty, as paid back by others,* will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but the only one that gives inventors advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, specifications, assignments, and all papers and drawings, necessary to the procuring of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual expense thereto, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

During the time I held the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, was in the habit of preparing Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who transacted it with more skill, fidelity, and accuracy. I regard Mr. Eddy as one of the best informed patent solicitors in the United States, and have no hesitation in saying to inventors that they cannot employ a person more competent and trustworthy, and more likely to secure for them a valid patent in the shortest time, and on terms the most favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

(From the present Commissioner.)

Commissioner of Patents.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing now and contracts for Door Frames, Doors, Window Frames and Sashes and Blinds, for good dwelling-houses and other buildings to be erected in this city the coming season. He has excellent workmen, in his employ, and has superior stock, so that he is now able to supply those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a well go-along, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rice Place, or at the store of M. S. Jackson, on Exchange-st., and at either place any article may be obtained or in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and to well organize his business that no man should now think of building in the old and slow and imperfect methods.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

141 *WASHINGTON STREET, BOSTON,*

Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tamarind or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we name the following rate of prices, viz:

5 lb. Best one Tea, 1.50 lb Mocha Coffee, 1.00
5 lb. Old mix Tea, 1.25 5 lb. Java Coffee, 1.00
5 lb. Young Hyson Tea, 0.95 5 lb. good Coffee, 1.00

The Spices are put up in ¼ and ½ lb. tin cans, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to a lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages bearing our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, in rotation by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the *genuine article.* The proportion added is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as it suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children, and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our *Coffees* have our trade mark, "Chinaman grinding coffee."

To Grocery and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object, being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system, and we confidently invite an examination of the quality of our articles, and our prices, as compared with the rates of any other house.

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, split, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the ingredient properties with which leather is tanned. It will not only make it water-proof, but it renders it softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my pants constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

The People's Judgment cannot be Averted

The Boston Journal and other hunkerdom papers indulge a hope that the promised restoration of peace in Kansas will improve the prospects of Mr Buchanan and the democratic party. We trust our abolitionized friends will not rob themselves of money or peace of mind on so fruitless a foundation as this. The free people of the United States are not so rapidly as they seem to imagine. The democratic party is held responsible not only for the recent outrages in Kansas, but for the long catalogue of those outrages. The overthrow of the Missouri restriction and the opening of our vast central territories to the curse of slavery was a crime in itself of sufficient magnitude to condemn for ever the party through which it was perpetrated. But crime cannot be stopped short by any twenty-hour, half-and-half repentance, in which the leaders may be driven by the stinging symptoms of the indignation of the people. The overthrow of the great compact of freedom was a vast crime against public morality, as well as against the interests of the labor of this country and of the world; and the party which deliberately and wickedly perpetrated that act must share the guilt with those who perpetrated the act. The traitor's version of the crime—the violation of the Sabbath by the robberies and murders committed upon the free settlers—the burning of dwellings the violation of women and the stripping of unborn babes and infants gasping out of the only asylum—the loss of the offices of the United States—are freedom.

The people have been developing themselves ever since the Kansas-Nebraska bill went into operation. For more than two years the Republicans have been constantly warned, or threatened, by the people, friends of every free State settler in the Territory. Just such that two years ago, slaughtered, burned, robbed, and bloody hands upon the people, by virtue of the assertion of the moral of the criminal act of the Whig administration in 1850, in the spirit and intention of the compromise adminstration in looking upon crime. Those were in progress with a thirst, and greater protection, but the settlers

Beside the great original crime which opened the Territories to the aggression of the Missouri restriction—to the original sin of the Compromise Compromisers—the people have had the Missouri outrages, the Ruffian and Dispersion, by the Buchanan Administration, JAMES BUCHANAN HIMSELF ESPECIALLY APPROVING THE KANSAS-NEBRASKA BILL at this day—the Dispersion APPROVES THE HOSPITALITY OF THE MISSOURI COMPROMISE. The overthrow of the restriction for free domestic expression, the low ruffian in judgment against the Northern, the Sumner, and the Herbert outrages were, to be sure, added to that incentive to action which the people have taken again, the democratic party and they have undoubtedly increased the public indignation. But for all that, our readers are not so many other instances of truth that the spirit of all vile and disorganizing elements of society is gathered and concentrated in the party of slavery and cruelty, which, however, develops itself and connects itself with the great and damning fact that the democratic party is closely allied with the slave oligarchy, and is the instrument of the extension and perpetuation of the system—putting together these facts together we say the people have deliberately judged and condemned the democratic party. And this judgment will not be reversed from any assault of suspension of the Kansas outrage, which after all see that the original sin of the great outrage, the violation of the Missouri restriction, the moral of the criminal act of the Whig administration in 1850, in the spirit and intention of the compromise adminstration in looking upon crime. Those were in progress with a thirst, and greater protection, but the settlers

The people have had time enough to see that neither the administration nor the party leaders are in any manner purged of their subservience to slavery, and no wish is entertained than ever to pander to the southern oligarchy.

There is another question, too, broader and more comprehensive than all others now before the people, which the people have determined shall be settled, and upon which the democratic leaders, the democratic National Convention and the democratic candidates are all utterly opposed to the Republican party. This question is, whether slavery shall be forever prohibited in the national territories—*whether Congress has the constitutional right to prohibit it in the Territories, and whether it ought in exercise that right!* The Republican party takes the affirmative of this vital question. The democratic party the negative. And the coming elections are to decide what the people say about it. We believe the people are in favor of FREEDOM in the National Territories, and that they will stand by the exercise of the prohibitive power by Congress.

If this be so, the Belfast Journal and other democratic and straight whig papers will perceive that no promised restoration of peace in Kansas, —even if peace were promised and established—would avert the determined judgment of the people, which is to be delivered in the great Council of the Nation on the 4th day of November next.

About the coolest piece of impudence that we have seen is the following, from that cute gentlemanly Know Nothing Wm H. Chaney, formerly of Ellsworth, now one of the publishers and editors of the New Bedford Express, a paper which carries the name of JAMES BUCHANAN at its mast head.

Chaney says, in a recent number of his paper:

As additional proof that the present supporters of Fremont were the mob party of Ellsworth, we adduce the fact that at a town meeting held July 8th, 1856, at which Jesse Dutton was Moderator, the following preamble and resolution was offered by Hannibal G. W. Maddox to whom we have occasionally alluded in the Express—both Dutton and Maddox being now enthusiastic supporters of Fremont.

Whereas we have good reason to believe that warrants indicted to one John Bapst, S. J. Clifton and Enoch for the larceny of the laws, but numerous, issued by our Sheriff Committee therefore,

Resolved, that what the old Hay Forwardism, thereby again in Ellsworth that we mobbing our gratitude for his kindly interference with our public schools and his efforts to banish the Bible from the M. V. B. by procuring legal immunity by organizing such of new lots and necessarily found on the slope of any taller and that which thus appointed we present in our behalf freely cast to eye Ellsworth upon the first ballot of the nation that they propose to offer.

Our readers will agree that this abusive remarks are somewhat contradictory, when they understand that *Chaney was himself the mobbed person.*

The last Ellsworth American says:

Mr Maddox informs us that the resolution above, were *in the hands of Mr H. Chaney* and that at the meeting Chaney told Maddox he would offer them. Mr Maddox, who had knowledge of such a resolution or even reading them, before read and left to the meeting was requested by some one who knew them the paper to read it to the meeting. He did so, he was requested. Thus was all he had to do with the meeting. The authorship of the resolution *Chaney has since acknowledged.*

PENNSYLVANIA. The contest in this State is very close. It is the result of the election in Pennsylvania. It was early in advance that the issue in the real battle field of the presidential contest. The State election of the 14th of October was watched with interest for the indications as it may afford of the probable result of the Presidential election which occurs three weeks afterwards. In the State election there are but two tickets, the Democratic on the one hand and the Opposition or Union ticket on the other.

The following extract of an article from the Philadelphia Inquirer will be read with interest. The Inquirer supports Mr Fillmore for the Presidency, but is not a partizan organ. It is a commercial journal of long standing and is not afraid or ashamed to tell the truth. The Inquirer continues to hold some encouragement for Mr Fillmore towards the close of the article which will be seen at the date of the Inquirer does not pretend, and nobody pretends that Mr Fillmore can carry Pennsylvania. The fact of the article is a direct and emphatic testimony to the certainty of the defeat of Mr Buchanan in his own State.—*Boston Daily Advertiser.*

THE GREAT STRUGGLE IN OCTOBER.—What is this Pennsylvania—Much anxiety evidently prevails in all parts of the Union in relation to the approaching contest in Pennsylvania. We have received several letters asking us to state the political position of the parties. In every case we have given the best information we have. The indications are of the most gratifying kind. The State officers to be voted for are Canal Commissioner, Auditor General and Surveyor General, and there are but two tickets in the field—the one nominated by the friends of the administration of the National Democratic Platform, and the other by the friends of the Administration and of the Cincinnati Platform and an overwhelming majority. Of this we feel assured. Our information upon the subject of the strong at character. The Opposition are thoroughly united and they will poll an immense vote. They will act justly, that much if not every thing, depends upon Pennsylvania. In the common cause they are signally united on the second Tuesday in October and all will be well in the center. Such a result will not only give tone and courage to the State, but it will give life and new courage to every where throughout the Union. Northern men are pretty nearly agreed that Mr Buchanan cannot be elected to the Presidency unless he carries the twenty seven electoral votes of this State. Let him be defeated with equal frankness. Let it be by any possible majority, even a few votes, should he be defeated at the first great contest which is now only three weeks in futurity. Here is the extraordinary importance of the approaching struggle, and hence, too the zeal of the Democratic leaders to create discord and dissension in the ranks of the Opposition. Does it feel that the fate of their leader will be gone, if he should be defeated in October, and that he will be defeated in every day brighter and more apparent. The effect must be to prove electrical. The more it can be ascertained that Mr. Buchanan cannot carry his own State—the Pennsylvania is lost to the Cincinnati romance—his case will be more hopeless, and some new policy will be adopted.

A REPUBLICAN RALLY IN VIRGINIA. A Washington dispatch of the 28th says that the Republicans of Wheeling, Va., and vicinity contemplate holding a mass meeting in that city, and have written to the Republican association of Washington to supply them with speakers from the slave States.

HON. ELISHA H ALLEN, our former townsman, who was United States Consul at Honolulu under the Taylor and Fillmore administration, and who has since filled with much credit and distinction the honorable station of Minister of Finance in the Government of the Sandwich Islands, is now on a visit to our city.

HON JOHN F POTTER, of Wisconsin, has been nominated for Congress, by the Republicans of the Third district. His opponent is the present incumbent, Daniel Wells, Jr. Mr. Potter is a son of John Potter Esq., of Augusta, a gentleman of talents and popularity, and a zealous Republican.

IMMENSE REPUBLICAN MEETING IN NEW YORK CITY.—MR. BANKS SPEAKING TO THE MERCHANTS. It is well known, says a correspondent of the Boston Journal, that a correspondence has taken place between the committee of citizens of New York City and the Hon Mr Banks, by which they have invited him to address them on a topic from the seats of the Merchants Exchange, upon the prominent political questions affecting the commercial interests of the country, and he, in a note dated Washington, Sept 22, accepted the same.

On Thursday afternoon at two o'clock a crowd of the most intelligent and the wealthy poured from their counting rooms and stores, and met in front of the Wall Street Exchange from the steps of which Mr Banks delivered a most eloquent address, at the close of which, on motion of Mr Joseph Hoxie, thanks of the merchants and citizens of New York were tendered to him.

The assembly was present is estimated at not less than 20,000 persons and it was composed chiefly of men connected with mercantile pursuits, with the officers of the mercantile represented a mass of the largest and most respectable business firms in the city. The chairman of the meeting Mr R H McCurdy of the firm of McCurdy, Aldrich & Spencer was, until very recently one of the political supporters, as we are a political friend, of Mr Fillmore.

Throughout the whole of Mr Banks' remarks a crowd of Fillmore adherents was assembled in Wall street, above William, who endeavored to drown the voice of the orator by cheers for Fillmore and hisses for Fremont and Banks.

The system of disturbance was evidently organized, and was put in play at the moment the voice of Mr Banks was heard. All their efforts, however, could not drown the clarion voice of Mr Banks and all whom it was possible to hear, in a voice could reach, heard him throughout, and only on a single occasion did he seem to be annoyed, and then but momentarily.

The conclusion of the speech was followed by prolonged cheering for Banks and Fremont.

MR PRESCOTT'S BODY FOUND.—We learn that the body of Mr Allen Prescott who was drowned from the steamer H Sanford, in Boston harbor, was found on Saturday last, and is now in charge of St Paul's Lodge of Free masons of Boston.

The ship DAVY HAYES of this port, Capt Wm A Coffin, is now waiting for a wind at Savannah, bound to Valparaiso. No vessel has ever left the Penobscot better *found, equipped* or *manned*, and we predict for the noble ship a prosperous voyage.

How the Maine Election is received out West.

We make the following extract from a business letter just received from Minnesota:

ST ANTHONY, Sept 17, 1856.

Messrs. Wheeler & Lynde

GENTS: Inclosed please find a remittance to extend my subscription to the Courier.

The news of the Maine election has filled the *Democracy* with rejoicing. The Buchanan men have been blustering about, and offering to bet on Wells's election, but the returns have drawn down their pluck amazingly and they are now trying to account for their defeat by saying that Gov. Wells committed some unwise acts last winter. But they will not admit that the process of "subduing the free-State men in Kansas" had anything to do with it.

As for Minnesota, you may set her down Republican, *sure* when she comes into the Union as she soon will. There has been a great revolution in the sentiments of the people in one short year. In this place we have a Fremont Club which embraces a majority of the legal voters of the place. Many of the most active members, men of influence, voted last year with the bogus democracy, and so I believe it is all through the territory.

So you may expect to see Minnesota soon knocking at the door of the Union for admission and sending two Republican Senators and two or more Representatives.

Whether the following deserved praise belongs to that category remains to be seen. If not the days of feather are numbered.

The Cincinnati Gazette informs us that the fire department of that city has put into consideration a new kind of hose made of Gregg's patent India rubber, of a length, when so checked and tightly as to prevent all escape of water through the great number of the leads. This hemp hose will, it is said, bear a pressure of 164 lbs to the square inch, and be far less likely to break than riveted leather hose. It is so light that a man can easily carry two sections, up a ladder which is double as much as can be carried of the hose now in use, and a hose fed with forty four times as much as of the leather hose yet be carried with only two thirds as much weight. The cost of this hose is said to be one half that of the leather hose.

WHAT'S IN THE WIND?—Most all of the Custom House officers in the State have been suddenly called to Washington. It is supposed that they have gone for the purpose of concocting some plan to carry the state, in November, in favor of Old Hunkerdom and Slavery.—*Bath Sentinel.*

A Slight Mistake.

A young buck went to see the daughter of a Presbyterian deacon, whose house was near a small dam. It being the prime of the year, the water was considerable of a roar as they tumbled over the dam. The modest young gentleman, tapped lightly at the door at first and received no answer. He tapped again—still no answer. Again and again he repeated his knock, still he was unheard. Mustering up courage, he proceeded to inflict some severe thumps on the door, which brought the aged gentleman out.

"I suppose" said the youngster, who had by this time become sufficiently nervous, from being compelled to wait so long, "I suppose you could not hear my knocking for the dam roaring."

"The dam to—ring! What do you mean sir? How dare you speak in that way: said the divine, somewhat angered at hearing the young man swear in his presence.

"I mean to say, sir, that I suppose you could not hear my knocking on account of the dam roaring."

"Dam roaring again! You young scoundrel, have you the impudence to insult me with a repetition of those words. Begone sir!"

"My dear sir! quoth the now bewildered youth "I intended to say that I presumed I could not be heard on account of the dam roaring, laying particular emphasis on the last two words.

"Insult on insult, shouted the infuriated man and he rushed at the poor fellow with the intention of ejecting him, but was restrained by the voice of his daughter, exclaiming—

"Papa, I suppose the young man intended to say that he could not be heard on account of the roaring of the dam."

"O—I beg your pardon sir—I beg your pardon—walk in, walk in, really—ah well! I declare! The dam roaring! Capital come in, come in! That is really too rich.

It is needless to add that the youngster went in, and in the pleasant society of the young lady, soon forgot the "dam roaring."

The Effect of Slave Labor upon Free Labor.

[Extract from Gov. Reeder's Speech.]

No man, I imagine, will pretend to deny the proposition, that slave labor and free labor never can exist together. Everyman admits that. There is the State of Missouri possessing natural advantages second to no inland State, and I do not except one. Its fountains of wealth are sealed up, because nothing but labor can open those fountains and labor in Missouri disgraced, degraded and trampled under foot. Labor there is the proper vocation of a servile, a degraded and a condemned race. Labor has not opened up her sources of wealth, and never will. The immigrant leaves the North will go below and above it, avoiding it as he would the deadly valley of the Upas tree, and nothing will tempt him to place his foot within it. [Applause.] Go into the States of Illinois and Iowa, which border on Missouri and there the true value of land of the same qualities varies from $25 to $50 an acre, while in Missouri the land is but $6 an acre, and you find that the Northern immigrant prefers buying land in the Free States, and they are wise in doing it. He cannot go there and labor. He cannot go there and live without his labor, and he cannot labor without taking the same status in society which the negro does. Then we may take it for granted as admitted and proved, that slave labor and free labor cannot exist side by side, and when you dedicate the country to slave labor free labor will never do it. Suppose, then, that the policy of the Democratic Party, the policy of the South and the policy of the present Administration, through your negligence and supineness—through your neglect to appreciate this question to do your duty as Northern citizens, and close up the gates of this vast Territory against this human tide of western immigration, is carried out—suppose it is allowed to tend to not to labor—what then becomes of the vast annual influx of free white Northern population that is now building up State after State in your Western plains swelled as it is now by the overflow of States until it has become a giant with dimensions and an energy feeble. It rolls on to the West. In a little while it will fill the unoccupied lands of Iowa and Wisconsin. Suppose the barriers which are erected for it across the State of Kansas and it recoils upon the States of the North with a deadly shock to our social structure. The wheels of labor at home are then checked up—*for the supply exceeds the demand.* Your workingman, your farmer, your mechanic, finds at last that it is too late to employ the remedy, and that where there is one day's work to be done there are ten men seeking to do it. He finds that he cannot treat with the capitalist upon equal terms. *He finds the supply of labor far above the demand.* There is no outlet—no depletion. The supply of labor increases, and the cause until white degrades. The labor is unadulterated half fed, uncloathed, and uncared for, and makes in the social scale until the population in society is thus unnoticed, and thus the mass of laboring population become nothing but degrading mass of poverty, degradation and crime. (Cheers.) That, my fellow citizens is a fair and proper view of the case, and I challenge contradiction or doubt.

I launched at Thomaston, on 13th inst from yard of R. & J. W. Jacobs, ship William Sewall, of about 1070 tons burthen, owned by the builders, R. Robinson, W. Singer and others. To be commanded by Capt Charles Farley.

Worth Reading.
WHEN, by long study and many experiments, a physician has discovered a new principle in medicine, by which pain may be removed and disease cured, more surely and effectively than before, it immediately becomes his duty and to bring it before the public so as to give to all an opportunity to profit by his discovery. For this reason the proprietor of the *genuine* Allied Ointment and Syrup offers his preparation to all who are afflicted with Scrofula, Salt Rheum, Cancerous Humors, Fever Sores, Pimples, and other eruptions, with the assurance that in nearly every case where they have been tried they have effected permanent cures. Every agent can give reference to persons in his vicinity who have been cured by them.

PROF. H. S. ADDISON,
OF BOSTON,
Often styled the Waking
CLAIRVOYANT,
WHOSE fame as a Natural Medical Examiner and Physician, has extended throughout the entire Middle and Eastern States, is now stopping at the
BANGOR HOUSE.....ROOM NO. 45,
Where, for a FEW DAYS ONLY, he can be consulted
FREE OF CHARGE!
On all diseases incident to the human family, from 9 A. M. to 8 P. M.
Prof. A. confines himself more especially to the treatment of Pulmonic Diseases and Diseases of the Blood of every form. Having had over fifteen years experience as a physician, and possessing the ability to state minutely and accurately all the diseases of patients by simply holding the hand, and without asking a question;—also, to administer with the same accuracy and success the proper remedies for the diseases he treats, founders this one of the most favorable opportunities ever afforded the afflicted of this place to obtain a *certain cure* in all curable cases. Prof. A. does not promise a cure in every case—some cases are beyond the power of human skill. He frankly states to every patient their true conditions, then if they wish medical treatment, he furnishes it not but in case he prefers patients to take his medicines. His medicines are vegetable, and are pleasant to take.
Many say that they would call if Prof. A. was to be a resident physician. That should not be an objection if a man can be cured. He makes but one prescription if the patient takes a full course of him.
He respectfully invites those from those suffering from the following complaints, viz:
Cancers, Asthma, Diseases of the Eye and Ear, Bronchitis, Costiveness, Cutaneous Affections, Tumors, Diseases of the Kidneys, Coughs, Colds, Diseases tending to Consumption, General Debility, Dyspepsia, Erysipelas, Fits, Headache, Indigestion, Jaundice, Loss of Appetite, Liver Complaint, Nervous Affection, Piles, Pain in the Side, Back and Shoulders, Rheumatism, Scrofula, Complaints peculiar to Females, and all Diseases originating in Impurities of the Blood.
☞ Neither the call or consultation will cost you any thing, but find comfort, and all that attend and blessings of good health may be preserved thereby. sep 8

AMBROTYPES!
Rooms---No. 1 Main Street.
THE subscriber have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and spacious suite of Rooms in the city for making Ambrotypes.
The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is taken upon fine plate glass, upon which is placed another glass, the two being united by an indestructible gum, thus securing it from dust, dampness, or liability to damage from any source.—The picture is not reversed, but free from that unpleasant reflection, peculiar to the Daguerreotype, and are the only photographic pictures that do not change.
Those having pictures they wish to preserve, can have them copied by this process.
The public are respectfully invited to examine the pictures at our Rooms.
Entrance next door North of No. 1 Main Street.
N. B. The genuine Ambrotype can be obtained only at our Rooms.

Consumption not Fatal, if Properly Treated.
To the Sick and Afflicted!
DR. & MRS. GREGORIE LAMONT,
THE celebrated Physicians for diseases of the Throat, Lungs, Heart and all diseases of the Blood, from 376 Broadway, N. Y., late of London, member of the reformed Medical College, New York, and the first who advocated inhalations for diseases of the Lungs, treat all diseases of the Chest, by the inhalation of Hot Medical Vapors with a success unknown to the physicians of this country, invite the attention of the sick and afflicted, labouring under the various forms of diseases, such as Coughs, Clergyman's or Tuberculous Lungs, spitting of blood, pain in the chest, sides and back, sore throat, bleeding lungs, chronic catarrh, night sweats, nervous complaints, confusion or dizziness of the head, palpitation, liver complaint, chronic diarrhœa, and all female complaints such as as prolapsus uteri or falling of the womb, and all uterine complaints, such as cancers, tumors, enlargements, suppression of the menses, excessive menstruation, Leucorrhœa or whites, scirrhous affections, spinal deformities, grave, and pernicious innoculations, and all diseases of the blood.
Mrs. Dr. Lamont is the only lady gifted with the power of telling diseases at sight, by looking into the eye, without the patient saying a word to her. She can tell them how they are affected in every particular, and prescribe for their immediate relief and permanent cure of their complaints. They can be consulted for a short time, free of charge, at the
HATCH HOUSE, Bangor, Room No. 3.
and those who are not able to call, by sending a card or address they will call and give advice; and as their stay will be short in this place, immediate attention to this card will be required to ensure success.
Their terms for medicine are very moderate in all cases, and the invalid may depend on finding speedy relief by calling immediately on Dr. and Mrs. Lamont, as their stay will be short in this place.
Please show this to your friends. It might be the means of saving a valuable life.
Bangor, August 7.

No Charge for an Interview!
Dr. R. RICHARD CLAY,
Demonstrator of Anatomy in the American Medical College, Cincinnati, and formerly editor of the Journal of Health and Medical Rambler—at the earnest solicitation of many of his old friends and patients, will
RETURN TO BANGOR ON
Tuesday, Sept. 9th, 1856,
And can be consulted at Room No. 46, next door to the Ladies' Parlor, Dwinel House, for a few days, or, if business requires it, until his departure for the Buckeye State.
DR. CLAY devotes his attention to the diagnosis and treatment of diseases of the respitory and circulating organs, and the medical and surgical treatment of uterine complaints. His method of operating upon the latter is far superior to that of any other man in New England, and his success truly astonishing. Hundreds can testify to the truth of this statement. There is not one physician in twenty who can perform the operation successfully—it is an operation which requires the minutest knowledge of the anatomical structure of the parts, and the utmost dexterity in performing it. sept4 tf

Professor Humphrey's SPECIFIC Homœopathic Medicines,

—FOR—

Families, Travelers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Colds, Headaches, Fevers, Worms, Coughs, Cholera Morbus, Diarrhœa, Dysentery, Fever and Ague, Costiveness, Piles, &c., but also those more deep-seated and chronic diseases which require the use of a specific remedy, such as Croup, Cholera, Dysentery, Inflammation, &c., for which treatment is very important always to have the proper remedies at hand. There are also remedies for the more delicate Female diseases, which, fully as much as any other class, contribute to the happiness and enjoyment of life.

These Medicines are prepared in the form of a fine Sugar Pellet, one of which is sufficient for the largest dose, put up in boxes properly labelled. Each box contains 27 or 30 Pellets, and 10 boxes, or the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases intended, and directions for giving the proper medicine, with such other information as may be necessary for a common Family. Each case contains from six to twelve of the most used kinds, put up, which may be supplied with any of the different kinds at an option of the purchaser.

The advantages of Specific Homœopathic Medicines—In preserving other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a head ache, a chill, fever, or any much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and be even the unskilled can use them with benefit and precision without that labor and study which the best physicians are obliged to bestow, and without that research and examination which to the mother, nurse, or invalid, is perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. F. HUMPHREY, Auburn, N.Y., and sold by C. B. WALKER, Agent for Maine, at 31 Main street.

Professor WOOD'S HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a new luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, &c. It will cure, also, all nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession:

NEW YORK, January 21, 1855.

Professor O. J. Wood—Dear Sir: On receipt of your certificate, I tried your Hair Restorative, and, being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, under your urgent solicitations, to give it a trial. I placed myself in the hands of a barber, and had my head shaved, which a razor did not, and the Restorative commenced to grow in, till the hair was as thick as ever, and very strong, and in three weeks the young hair appeared and grew so rapidly from August last until the present time, and now stands thick, and strong—all and glossy to the tips, whereas, before it was thin, and wiry, and in the three weeks, and that hair was so superior to my previous hair, that I shaved my head a second time, and shall soon have a good and perfect head of hair. Now I believe all the stickings—and will—as not? but have not been bitten by any case whose pay per on a fair will really be induced by any of the just claims, &c., of your [illegible] and it really gives me pleasure to record the result of my experience. I also recommended your preparation to others, and it steadily has a large and general sale. I not out the territory. Many people know its efficacy, and daily inquiries are made for it. The supply you sent us, with yearly agents for the territory, is nearly exhausted, and daily inquiries are made for it. You can rely upon my recommendation, and I, for one, return you my thanks for the benefit I have received from your discovery, and I, for one, return you my thanks for the benefit I have received from your discovery, and I, for one, return you my thanks for the benefit I have received from your discovery
